

QUANTILE

An LSEG Business

Shrinking complexity. Growing returns.

Reduce risk, notional and capital requirements with
Quantile's market leading optimisation services.

About Quantile

We offer the market's leading optimisation services and exist to help run portfolios more efficiently, increase returns and guide the industry towards a healthy steady state.

Powered by advanced algorithms, our optimisation engine can reduce risk, notional and capital requirements. With an extensive network and record-breaking runs, our agility and ambition are unrivalled in the market.

Our clients, including all of the top tier global banks, regional banks, buy-side firms and other large institutional market participants, are serviced from London, New York, Amsterdam and Sydney (Tokyo coming soon).

We're here to make the derivatives market run smoother.

Optimisation

Our multilateral counterparty risk optimisation service reduces initial margin and risk-based capital under SA-CCR and IMM by analysing the risk of transactions between participants and rebalancing portfolios with new market risk neutral trades that reduce risk and release capital.

- > We enable clients to simultaneously reduce counterparty risk, capital requirements and margin costs across bilateral and cleared portfolios – often in excess of 50%.
- > Our flexible objective function can support different metrics as regulations change and we offer tailored solutions for the buy side and clearing brokers.

Asset classes we optimise.

Compression

Our multilateral interest rate compression service reduces gross notional and trade count while preserving the overall risk profile and valuation. It makes portfolios cleaner, leaner and more efficient, and frees up valuable capital that would otherwise be held unnecessarily.

- > We transition LIBOR to risk-free rates, manage reset risk and reduce G-SIB exposures to lower costs and make portfolios easier to maintain.
- > We also offer an internal compression service which reduces trade count and notional between different desks or entities within the same group.

Trades we compress.

How are we different?

Run Faster. Run Better.

We can connect to your data sources via API to create a low touch process and free up your internal resources.

Your Run. Your Way.

We offer flexible constraints so you can target what matters most to you, while we ensure optimal optimisation performance.

Extensive Network. Impressive Results.

We have an extensive and rapidly growing network, including all of the largest dealer banks, plus regional banks and buy side firms.

Bank or Buy Side. We've Got you Covered.

We offer tailored services for the buy side and are pioneering solutions with clearing brokers to deliver impressive results.

Reactive to change. Proactively game-changing.

We host regular working groups with the market which enables us to deliver what the industry wants, and what it needs.

Flexible Pricing.

Our pricing is transparent and flexible, encouraging regular participation based on participant size.
